

## FLEET HERE WHOLE WEEK

(From Thursday's Advertiser.)

Cable orders from Washington received yesterday morning aboard the flagship West Virginia contained the welcome news that the Pacific fleet need not sail from Honolulu for San Diego or Magdalena Bay until October 22. That date falls on Thursday of next week, and will therefore provide ample time to fill in all the public entertainments planned by the local citizens' committee, as well as the many private functions.

### Pearl Harbor Trips.

The local entertainment committee waited upon Admiral Swinburne yesterday morning and learned of the order permitting the fleet to remain here until next week Thursday. The Pearl Harbor trips, which it was thought the day before would have to be given up altogether, will therefore be made on Monday and Tuesday.

In addition, the ladies of Honolulu yesterday issued invitations for a ball in honor of the officers next Monday evening at the Young Hotel, an invitational affair strictly, and for Tuesday evening they will give a grand ball at the Seaside in honor of the enlisted men.

### Coaling Almost Pa.

The work of coaling the warships, which began shortly after arrival on Tuesday, was about completed yesterday afternoon, with the exception of the Colorado, which, arriving after the others, and the carts being employed elsewhere, did not get its supply until last evening.

The cruiser Pennsylvania and the destroyers Preble, Stewart and Hull were finished by noon yesterday and the others at 5 o'clock. The washing up of the warships will consume the greater portion of this forenoon, after which the men will begin to get their shore liberty. The Colorado may be through coaling at 10 o'clock this morning.

Each cruiser took on about 1600 tons, the total amount for all the vessels being close on to 9000 tons.

### French Cruiser Salutes.

As the French cruiser Catnat entered the harbor yesterday morning she fired a national salute of twenty-one guns which was answered from the Naval Station battery gun for gun. When the Frenchman was passing the stern of the West Virginia, a huge American flag was hoisted at the fore. Then Admiral Swinburne's flag was saluted, and the flagship responded.

### Wireless to Seabree.

On Tuesday evening the flagship was in wireless communication with the second division of warships coming up from Samoa. The three cruisers Tennessee, Washington and California and the three destroyers, will arrive here on Friday. The cruisers now in the harbor will move to the outside anchorage, leaving only the flagship at the wharf.

### THE WORRIED WOMEN.

They say men must work and women must weep; but alas, in this too busy world women often have to work and weep at the same time. Their holidays are too few and their work heavy and monotonous. It makes them nervous and irritable. The depressed and worried woman loses her appetite and grows thin and feeble. Once in a while she has spells of palpitation and has to lie up for a day or two. If some disease like influenza or malarial fever happens to prevail she is almost certain to have an attack of it, and that often paves the way for chronic troubles of the throat, lungs and other organs; and there is no saying what the end may be. Let the tired and overladen woman rest as much as possible; and above all, place at her command a bottle of **WAMPOLE'S PREPARATION** a true and sure remedy for the ills and maladies of women. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Search the world over and you will find nothing to equal it. Taken before meals it improves the nutritive value of ordinary foods by making them easier to assimilate, and has carried hope and good cheer into thousands of homes. It is absolutely reliable and effective in Nervous Dyspepsia, Impaired Nutrition, Low Vitality, Wasting Conditions, Melancholy, Chlorosis, Scrofula, and all troubles of the Throat and Lungs. Dr. F. J. Boyes says: "I have found it a preparation of great merit. In a recent case a patient gained nearly twenty pounds in two months' treatment, in which it was the principal remedial agent." It carries the guarantee of reliability and cannot fail or disappoint you. At chemists

## WILL BECKLEY BE OUT FOR MAYOR?

(From Thursday's Advertiser.)

Fred Beckley, Independent candidate for Mayor, is now the specter that the straight line party men have to worry over. Beckley climbed a soap box at the corner of King and Bethel yesterday afternoon and launched out into what was interpreted as a bitter anti-haole talk and now the politicians are questioning each other as to what it means.

"Do not vote for any haole on the ticket," said Beckley in the course of his harangue yesterday. "Vote for the Hawaiians. Pick the best Hawaiians from each of the three tickets. That is what I am going to do. There are good Hawaiians among the Republicans; there are good men on the Democratic ticket and the Home Rule ticket has some Hawaiians that you should vote for."

"Let the people see that this country can be governed by the Hawaiians. The people on the mainland look to us Hawaiians, not to the plovers."

Just why Beckley should come out like this and talk for nearly an hour for a split-straight-Hawaiian ticket can only be accounted for by the politicians in one way. They reason that he has drawn the color line purposely that he might be dismissed from his position as Hawaiian interpreter in the Supreme Court. Then he can announce himself as the Hawaiian candidate for Mayor, a martyr to the Hawaiian cause, fired from his position because he is a Hawaiian and advising the Hawaiians what to do. Such an appeal, at this stage of the game, might be an effective one.

### Anonymous Letters.

Another feature has crept into the campaign within the past couple of days. Some of the workers and candidates are commencing to receive anonymous letters, threatening them with political death, bodily injury and other things if they continue to talk and work as they do. Charley Chillingworth has received one of these letters. It reminds him that he is a Hawaiian and in talking straight ticket he is working against his people and proving a traitor to his race. It adds that death awaits the traitors.

John Wise has been favored with two such epistles, couched in somewhat similar language, while others of the Hawaiian candidates have received similar messages. No one appears to be bluffed by the letters so far, at any rate.

### Endangering the Ticket.

A prominent Republican worker remarked yesterday that the party seemed to have fallen into an apathy that looked bad for their chances of winning the majority of places at the election. "Here it is only three weeks to election day and all the business men and those from whom we look for support, moral and otherwise, are hanging back. They don't come out to the meetings and the Hawaiians notice it. We have managed to get Kaea off the ticket now and if Catheart would only see that he is the one man on the list now that is preventing party harmony and would withdraw, the campaign would go otherwise than it is going. Catheart must see that he isn't wanted on the ticket. He is never asked to come to the meetings and his name is never mentioned at any of the meetings. What is he waiting for? Does he want to be told any plainer than he has been that he isn't wanted?"

### Democrats Scent a Plot.

The Democrats believe that Dr. J. H. Raymond, Democratic candidate for the Legislature from Maui, with Ben Lyon, the manager of the campaign on that island, are in a plot, perhaps with others, to throw Link McCandless down. A number of things have come to light that looked suspicious, but one of the most striking was an incident occurring in Honolulu. The Molokai Settlement is a part of Raymond's district, and that he should want to go there to make a campaign speech or two was natural. However, he did not apply for a permit to go to the Settlement either directly or through the local Democratic managers. But day before yesterday Charles K. Nottley, the Home Rule candidate for Congress, applied at the Board of Health office for a permit for a party which included himself, Dr. Raymond, Ben Lyon and one or two others. From this it would seem that the Democratic candidate for the Legislature intends to go to the Settlement in company with the Home Rule candidate for Delegate to Congress, and probably speak from the same platform with him. This is considered wholly inconsistent with loyalty to the Democratic nominee for Congress, McCandless. Two years ago Maui threw McCandless down.

### Achi Bolts Laborers Platform.

Charley Achi, the Laborers candidate for Mayor, spurns at least one of the planks of the Home Rule party, a plank adopted at the double-barreled convention that nominated him. This is the plank which reads:

## MAIELUA GETS ON THE STUMP

(From Thursday's Advertiser.)

Maieleua, the Republican candidate for Representative from the Fifth, who has been selected to replace the gambler Kaea on the ticket, made his first appearance as a candidate at the Republican rally held in Pannui last night. His speech was one of the hits of the meeting, he turning back upon the originators very neatly the report already in circulation among the Hawaiians that Kaea was put off the ticket by the haole Republicans on account of his color.

"They tell you that Kaea was put off the ticket because he had a dark skin," said Maieleua last night. "But if that is so it must seem very funny that they picked me to go on in his place, because my skin is darker than his." As Maieleua is a particularly swarthy Hawaiian, this remark proved a winner and its further use will detract from the harm Kaea's color line talk will do to the Republican cause. There is some danger, or there was, that the Hawaiians in the Fifth might not understand the committee's action in firing the gambler-candidate, but in the Fourth the ticket as a whole has been strengthened materially by the pruning out of the name, although the Fourth have no vote so far as either Kaea or Maieleua are concerned.

Kaea has now turned to the Home Rulers, who don't want him, stating very plainly that no black sheep need apply. Last night he wanted to make a speech at the Home Rule meeting in Nuanuu, but was turned down, while all the Republican platforms are tabu for him in future.

There was not much of an audience at the Pannui meeting but what few had gathered gave the speaker a good hearing and at times applauded in a desultory way. Harry von Holt got the best reception, his speech dealing with malihinis and the story told by Trent at Aala park on Saturday night. The speaker made a noise like a plover at one stage of his address.

Logan made one of the longest speeches at the meeting, emphasizing the need of a good, harmonious Board of Supervisors to institute city government, composed of men who would work for the good of the city and not waste time and opportunity by playing politics. He was very well received.

William Paikuli, a district leader, acted as chairman and kept the crowd in good humor by injecting remarks of his own concerning the candidates as he introduced them.

The list of speakers was: Nauha, Correa, Logan, Maieleua, Kane, Kama, Watkins, Kaleiopi, Mikalemi, von Holt, Bicknell, Kalanokalani and Wise.

## WATER SUPPLY GETTING SHORT

Water is again becoming a scarcity in Honolulu and some sections of the city are commencing to suffer from the shortage in the supply. Yesterday the water was shut off from Manoa and College Hills, employees of the water works department going around among the residents of those suburbs yesterday explaining that the Makiki reservoir was dry and that water would only flow up the hills at night hereafter, pumped from the Beretania plant, until rains came. Many of the Manoaites and residents of College Hills are living in houses unprovided with water tanks and these will feel the deprivation very much.

As yet there has been no cutting off of the supply from Nuanuu, although the reservoirs in the valley are said to be very low.

### PROPER TREATMENT FOR DYSENTERY.

The great mortality resulting from dysentery is due to a lack of proper treatment. Not one case in a thousand will prove fatal when Chamberlain's Colic, Cholera and Diarrhoea Remedy is given at the first onset of the disease. For sale by Benson, Smith & Co., Ltd., agents for H. I. L.

"We also pledge our candidates for the City and County of Honolulu to fit by ordinance the compensation of all day laborers in the employment or service of the City and County of Honolulu a minimum wage of two dollars and fifty cents (\$2.50) per day on all public unskilled works."

Achi utterly repudiates such a plank and such a scale of wages. In a letter to the Advertiser yesterday he wrote: "Honolulu, October 14, 1908. Editor 'P. C. A.': I see in your paper of this morning that I am promising to the people that in case I would be elected Mayor of the City and County of Honolulu, that the laborers will be paid at the rate of \$2.50 a day; I must state for your proper information and for the benefit of the public, that I did not make such a statement, and further I do not believe it would be for the benefit of the public at large to pay laborers at the rate of \$2.50 per day."

"If any of your reporters made such report I must say that he did not tell the truth. Respectfully yours, 'W. C. ACHI'."

## ALGAE FOUND IN KAIMUKI WATER

(From Thursday's Advertiser.)

Food Commissioner Duncan yesterday reported to the Board of Health as follows:

"The water from the Kaimuki reservoir at this time is of marked difference from the water of the Kaimuki Pumping Station which supplies the reservoir. A considerable growth of algae in the reservoir was noticed and is the cause of the disagreeable appearance and contamination of this water."

The board directed that the Superintendent of Public Works be notified of this condition and be directed to clean out the reservoir.

When Dr. Cofer was president of the Board of Health, he issued General Order No. 1, which was a tentative effort to thoroughly systematize and coordinate the different departments of the work of the Board, and to define the duties of each employee, so that responsibility could be placed where it belonged. At the meeting of the Board yesterday, President Robinson announced that this general order had worked well in a great many particulars, but that in some particulars friction had grown out of it, and that revision was advisable. He suggested that the matter be referred to the Committee on Rules and Regulations for revision. It was suggested that as the general order had never been adopted by the Board, it could be rescinded by the president. Dr. Wayson thought that as it had worked well in some particulars that revision ought to be undertaken in order to make it workable in those particulars wherein it had not worked well. In reply to a question from one of the other members of the Board, he said that he thought they ought to secure as well established and orderly methods of transacting the business of the department as possible, and that this was in that direction. On motion the matter was referred to the committee for revision.

The County Clerk notified the Board of the passage by the Board of Supervisors of the tenement house ordinance, a copy of the ordinance accompanying the notice.

Dr. T. Mitamura notified the Board that the Japanese Cemetery Association had opened its cemetery at Meilihi, in accordance with the rules of the Board. The secretary of the Board was directed to secure official notification of the officers of the association, so that the employees of the Board would know with whom they were dealing in all matters connected with the cemetery.

A letter was received from Superintendent J. D. McVeigh, saying he had received a letter from Dr. J. H. Raymond that the latter, with his party, would come into the Settlement over the Pali in order to hold political meetings. He expressed regret that Dr. Raymond was coming that way, as it always led to more or less confusion and the mixing of the lepers with those who were not lepers. The secretary was instructed to write the superintendent to say that no pass had been issued to Dr. Raymond to enter the Settlement by that route; that the pass issued to him only permitted him to land at the Settlement from a steamer, and to remain in the visitors' corral during the stay of the steamer at the Settlement. If Dr. Raymond insists on entering the Settlement by the pali trail, there may be trouble.

A request was received from Dr. Hayes, the new government physician for Honolulu, to be informed whether he should require children having trachoma to remain away from school until they had recovered beyond the danger of spreading infection or not. The Board by vote instructed him to keep children out of school until they were fully recovered.

Fred C. Smith asked if Kahuku plantation had done anything yet in regard to improving the sanitary conditions of one of the camps which had been found to be infected with typhoid fever. Dr. Wayson said he had been told that they had, and the matter was referred to Dr. Pratt to personally investigate and report. It was reported that several cases of typhoid had broken out in another camp not heretofore infected.

A letter was received from the Joseph Gerschweller Remedy Company in regard to a wonderful cure for leprosy which the company claims to have. It is the discovery of a great scientist of the fifteenth century, which has remained forgotten until recently. A government of Europe is considering the acquisition of the remedy, but meanwhile the company offers enough of the remedy without cost to demonstrate its virtues.

Dr. Wayson proposed that the letter be referred to Dr. Brinkerhoff, inasmuch as it was addressed, vaguely, to the United States. But Fred C. Smith suggested that as they offered it for nothing that some of the remedy should be sent for and any patients at the Settlement who wanted to try it might be given the opportunity. This motion carried unanimously.

## IS EDMUNDS ACT IN FORCE?

(From Thursday's Advertiser.)

It is probable that a decision in the Blanche Martin case will be handed down by the Supreme Court this morning. The case is a very important one, and has attracted considerable attention.

The woman who gives her name to the case was fined in the police court under the Territorial statute against adultery. Her appeal goes to the Supreme Court on the ground that the act of Congress known as the Edmunds Act, covering the same subject as the Territorial act, is exclusive in its operation, and that therefore the Territorial act is inoperative and void.

The Attorney-General's department takes the position that the Edmunds Act is not in force here, but was passed to meet a particular state of affairs in the Territory of Utah.

The County Attorney's department takes the ground that both laws are in force here, and that the law under which jurisdiction is first taken or under which judgment is first secured, controls in the individual case.

The Captain Carter case, which involved a question of Territorial vs. Federal jurisdiction, was thought by many to touch on the same grounds, and the decision in that case was read with much interest by lawyers to see if in that case the court had said anything to indicate what its decision might be in the Blanche Martin case. So far as anyone could discern, however, there was not anything in that decision, the court very carefully keeping away from anything that might appear like a common principle in the two things.

### The Pineapple Cases.

Deputy Attorney-General Whitney has filed a motion in the Supreme Court asking that judgments be entered in the seven pineapple cases in accordance with the decision of the court rendered in these cases some days ago. The motion will be presented Saturday morning.

### To Borrow Money.

In the matter of the estate of Alice Kapuan Siemen, the administrator, Eddie Siemen, has filed a petition setting out that the only indebtedness of the estate is the funeral expenses, the cost of probate proceedings, and an attorney's fee, amounting in all to about \$125. The personal property is not enough to pay it, but it would be unreasonable to sell real property, to pay it when the rents of the real property will soon be sufficient to pay it, and the lessee of some of the real property, F. A. Schaefer and Co., are willing to advance the money and take as security the future rents to become due. The petition asks that the administrator may be authorized to borrow this money. An inventory of the estate is also filed, showing the estate to be worth \$800.

### The Chandler Mandamus.

The mandamus proceedings of John S. Chandler vs. E. A. Mott-Smith, Secretary of the Territory of Hawaii, reserved questions from the First Circuit Court will be up for hearing this morning at 10 o'clock, before the Supreme Court.

### Bill of Costs Filed.

In the suit of C. Bolte vs. Irene Ii Holloway, wherein a verdict and judgment for the defendant was rendered, Mrs. Holloway has filed a bill of costs amounting to \$52.85, of which \$44.35 is statutory attorney's fee.

### Jurors for Next Year.

The Judges of the Circuit Court have entered an order directing that the drawings for the grand and trial jurors for the January term, 1909, shall take place at 9 o'clock, December 14, 1908, in Judge Lindsay's courtroom.

### Two Months on the Reef.

Emory Harris, the colored sailor from the Iroquois, was yesterday sentenced by Judge Robinson to two months' imprisonment for assault and battery. He tried to stab a woman in Iwilei.

### Illicit Selling.

K. Anno, a Japanese, was fined \$100 and costs yesterday by Judge Robinson for illicit liquor selling. A Japanese woman Kimi pleaded guilty to the same offense but was released on suspended sentence.

## GOVERNOR FREAR AND HIS FURTHER PLANS

Governor Frear and Chief Hydrographer Newell and their party will leave the Island of Hawaii by the Mauna Kea Friday night embarking either at Kawaihae or Mahukona and will land at Lahaina later that night. They will remain there part of the next day, possibly visiting Lahainaluna, and will take the Mikahala Saturday afternoon and land later on Molokai either at Pukoo or Halawa. Sunday and Monday will be spent on Molokai and Monday night the Maui will stand off Kaula while the party comes out in a boat, and will arrive here Tuesday morning October 20. As it is planned now, the party will sail on Wednesday, October 21, for Kauai and will spend a week or possibly ten days there.

## DR. ATCHERLEY HAS HIS CHANCE

(From Thursday's Advertiser.)

Dr. John Atcherley is to be permitted to treat three leper patients at the Kalia receiving station. This was decided on at the meeting of the Board of Health yesterday afternoon. This action was not taken on his request but on the request of a relative of the three patients, who promises to be responsible for all expenses in connection with the transfer and treatment of the patients.

The request came in writing that the daughter of the petitioner might be permitted to come from the Settlement to the receiving station for treatment. Continuing the petitioner said:

"I wish her husband — to come at the same time for treatment. In fact, it will be necessary that they come together, to wait on each other while undergoing the process of straightening or uncurling of fingers, when the hands will necessarily be in bandages. I understand the hands of both are partly curled up or as they call it 'popee,' and as I am thoroughly convinced that Dr. Atcherley can uncurl them and at the same time arrest the progress of, or at any rate greatly ameliorate the disease now afflicting them, whether it is true leprosy or Palagra, as one eminent medical authority pronounced it, I am extremely desirous that my children should have the chance of such relief."

"I promise to pay all expenses of their maintenance while here. The only thing I ask is a room for them at the receiving station and free access to them for medical purposes for the physician Dr. Atcherley."

A request for a third person, another relative of the petitioner, is also made. As to her language of the petition giving as a reason for the request is that "to have her hands uncurled, only, would be a great relief to her, even if she received no other visible benefit."

A motion directing Superintendent McVeigh to send the three patients named to the Kalia receiving station by the first steamer was made by Dr. J. T. Wayson and was unanimously voted adopted.

The disease "Palagra" mentioned in the petition is a disease caused by eating corn or wheat which has been attacked by a certain parasite inducing the disease. In outward symptoms it very much resembles the tubercular form of leprosy, and in its acute form is often fatal in a short time. Bacteriological examination, however, clearly reveals the difference between the two diseases.

## SIXTY MEN-OF-WAR WILL BE AT YOKOHAMA

The American battleship fleet, which will arrive at Yokohama on October 17, consists of sixteen battleships and six auxiliary vessels, a total of twenty-two vessels, and the Japanese reception squadron will be composed of eighteen ships, says the Japan Gazette. Thus the American and Japanese vessels number forty in all. Moreover, foreign warships in Oriental waters will assemble at Yokohama about the same time and anchor to the left of the Japanese reception squadron. On that occasion some sixty large men-of-war will be seen off Yokohama, presenting an unprecedentedly grand spectacle.

Commander Yoshioka from the Yokosuka naval station is now surveying the proposed anchorage of the American and Japanese ships off Yokohama.

The anchorage of American warships in Yokohama has been already settled. From the lighthouse moorage outside the breakwater it will extend as far as off Tsutsumi, Kawajiri and Shiboda. Two columns near the shore out of five will be occupied by sixteen American battleships, the third and fourth columns by Japanese reception ships, and the fifth by foreign ships. Auxiliary American ships will moor along the breakwater. Merchantmen will be allowed to pass between the fourth and fifth columns in the distance of 500 meters. The land and sea telephone apparatus will be connected with the American flagship via the Japanese.

The Japanese reception fleet to be organized early in October will consist of the battleships Mikasa, Asahi, Shikishima, Iwami, Fuji, Sagami, Hizen and Suwo, the Yakumo and three other armored cruisers and four third-class cruisers, a total of sixteen.

### OFFICIAL CALLS MADE.

The commanding officers of the Catnat made their official call on the Governor yesterday afternoon and were received, in the absence of the Governor, by Secretary Mott-Smith who will return the call at 9 o'clock this morning. The French officers were accompanied by Consul Mennant. The officers were Commodore Buehard, commanding the French Naval Division of the Pacific Ocean; Captain Andre Lequerre, commander of the Catinat, and Georges Mazare, the executive officer.

Secretary Mott-Smith yesterday made calls on all the vessels of the fleet now in the harbor.
